OMEXCO  
Fine Belgian Wallcoverings

*« The faux-plain pattern is available in 10 classic shades and improves the acoustic comfort of any space. »*

## SILENCE

*A decorative wallcovering with acoustic properties*

Omexco is launching its first collection of decorative wallcoverings with acoustic properties. SILENCE is the result of a collaboration between the company's research and design teams.

SILENCE is a high-quality product with a simple tone-on-tone design.

The design is available in a subtle range of 10 colours.

Designed with your interiors in mind, SILENCE offers an improved acoustic comfort by strongly reducing the reverberation of sound.
