

Essentials Totem

Tall. Taller. Tallest. Geometric shapes that have randomly been arranged, to create ever taller stacks. In many ways, these eye-catching designs resemble modern, abstract sculptures. They are reminiscent even of ethnic art from around the world, striking a pleasantly balanced note in any interior, thanks to the natural look of textile, woven grass and raffia.

Infinity

Neatly stacked geometric shapes are pieced together like a perfect puzzle and yet this design somehow still succeeds in looking as if it has randomly been arranged. The combination of different planes and the rustic woven grass texture contrasts beautifully with the straight lines.

Infinity is available in 8 colourways.

Rabane

In French 'rabane' refers to a fabric made of natural fibres, usually raffia. In this instance, loosely woven strips of raffia have been sewn together to create an informal pattern. The rough raffia texture is finished with a subtle sheen, adding an interesting contrast.

Rabane is available in 5 colourways.

Esparto Africano and Esparto Ibérico

Esparto is a strong fibre made from two species of perennial grasses of North Africa, Spain and Portugal. In woven form it is used for all kinds of crafts, to create both decorative and utilitarian objects. In this instance, it inspired these designs in which the shapes contrast beautifully with the randomly organised pattern.

Esparto Africano and Esparto Ibérico are available in 8 colourways.

Ecoline

A seemingly arbitrary arrangement of abstract shapes in natural colours gives this pattern an informal vibe. The Ecoline paint adds a unique watercolour effect to the design, which is printed on non-woven.

Ecoline is available in 3 colourways.

Le Papier Tissé

This design is inspired by woven paper. The fine structure of the paper strips shows the natural fibres and results in a play of slight colour nuances.

Le Papier Tissé is available in 8 colourways.

Prices available on request.
