

“With the Cosmopolitan Living collection, we have interpreted the theme of graphics in a contemporary way. The designs have an exciting, architectural look thanks to their sophisticated weave construction.”, Thomas Fenn, Design & Development JAB ANSTOETZ Fabrics.

With „Cosmopolitan Living“, a key topic of the spring 2024 collection, JAB ANSTOETZ Fabrics interprets modern living with subtle graphic designs and tone-on-tone combinations. The new upholstery and decoration fabrics as well as the transparent articles impress with their casual chic. The centrepiece of the new collection are five hard-wearing upholstery fabrics made of soft chenille and voluminous fancy yarns. The designs of the Oeko-Tex-certified blended fabrics feature attractive matt-gloss contrasts and dark contours enhance the three-dimensional effect. The ten colour families range from bordeaux, rust red, jade, mint, lime green, royal blue to silver, sand, greige and mocha.

The striking graphic design **CHICAGO** features a tasteful diamond pattern, while **DENVER** creates an original architectural effect with its three-dimensional squares. **AUSTIN** is a particularly generous design: the interplay of fancy yarns creates a tactile texture and a conspicuous pattern in a kind of oversized braided look. **ORLANDO** displays an ornamental diamond design with rounded contours and lends the upholstery fabric a somewhat playful and feminine character.

The hard-wearing plain **DAN** has a soft feel and a delicate gloss thanks to the chenille used. Due to its high density, **DAN** can be used as a heavy decoration and thus as a thermo-functional article. It also scores with its easy-clean properties. The nuanced colour palette comprises 42 shades, some of which can also be combined excellently with the jacquards

The flame-retardant upholstery fabrics of the **OCEAN DRIVE** collection are another highlight. The small-patterned articles impress with their youthful and fresh look. The combination of up to three spot colours gives the designs an unusual depth and vibrancy. They are available in different colour palettes from 12 to 30 shades. The two-colour hexagon pattern **OCEAN DRIVE** is based on an Art Deco pattern. The broken-up contour lends it a more relaxed graphic appearance. **SOUTH BEACH** is a dynamic fantasy design in three spot colours. Voluminous fancy yarns create an unusual look. The small floral pattern **MIAMI** combines the contours of flowers and leaves as if in a silhouette.

The plain quality **GAUCHITO** guarantees maximum functionality and durability. The matt, finely grained and flame-retardant artificial leather is available in an appealing and extensive range of 54 colours. It is pleasantly soft and thus easy to process.

The collection is completed by four decoration fabrics, two curtain voiles and a blackout fabric. Their soft materiality and exciting textures lend rooms a special expressiveness.

The room-high decoration fabric **CLYDE** from the EcoProtect range is a textured plain that fits into any interior. Its subtle gloss and the multicolour effect create a casual look. It can be used both lengthwise and crosswise. **BONNY** displays a delicate multicolour effect and a beautiful weave structure. The stripe can also be worked in both directions. Due to the high proportion of recycled yarns, this is also an EcoProtect article.

The eye catcher **MOSAIC** is available in a standard width. The organic tile pattern impresses with its beautiful volume and the subtle gloss effect. The understated colours underscore its modernity. The diamond pattern **ZOLA** exudes vintage charm. The blend of polyester and viscose yarns provides a soft feel and gloss - a modern retro interpretation.

- ④ GAUCHITO JA1050-051
- ⑤ OCEAN DRIVE JA2105-051

BEAM is a modern, room-high transparent article with a cord-like weave effect. **LEGERE** lives up to its name. The fine, room-high transparent fabric displays an iridescent effect. Whether used in a modern, elegant or country-house style, the EcoProtect article convinces with its competent colour palette of 28 natural shades. The flame retardant room-high dimout **MOON STONE** has an identical fabric face and back. Its subtle mélange effect can be found in 32 colourways in most varying intensities.

This Coordinates collection can be used in many contexts. High-quality, durable and extremely versatile, it fulfils all requirements in terms of comfort and functionality. It is the answer to a cosmopolitan-inspired interior design.
